1. In the spring of 1953 foundations were being constructed for two workshops near Bydgoszcz-Wschod (formerly Bydgoszcz-Kapusciska) Railroad Station, between Fordonska Street and the railroad line. The workshops were to be 80 x 24 x 12 m. high.
2. The Bydgoszcz Union of Industrial Building was engaged in this construction work in the summer of 1953, on the orders of the Ministry of National Defense (MON). Since the work is planned to take two years, it is assumed that further buildings will be erected. It is alleged that these will be repair workshops for military purposes.

1 and 2 - Workshops under construction.  
3 - Railroad Station.

3. It is alleged that weapons are under production in the Bydgoszcz railroad semaphore factory located on ul. Grunwaldzka. The latest type of Polish machine carbine "PMS" and pistols type "TT" are supposedly produced there.
